### PROFESSIONAL SKILLS

Perfectionism  
Leadership

Problem Solving  
Mentoring

### TECHNICAL SKILLS

React, Next, Node, Express, HTML5, CSS3,  
Tailwind CSS, REST APIs, MongoDB, Postman, C,  
C++, Java, Python

### PROJECTS

#### Ping-Up Social Media

July 2024 – Sept 2025

MERN stack social media platform with user authentication, profiles, posts, stories, and real-time messaging. Implemented secure authentication, media uploads, and scalable backend using Node.js, Express, MongoDB, Clerk, and Image-Kit. Built frontend-backend integration and real-time workflows for a smooth, interactive user experience.

#### AI – Interview Preparation website Sept 2025 - Present

Sept 2025 - Present

Built an AI-powered interview preparation website with role-based Q&A, note-taking, and dynamic AI explanations. JWT authentication, MongoDB storage, and AI-generated questions/answers using the Gemini API. Designed a clean, responsive frontend with React and Tailwind CSS for a smooth and interactive study experience.

### EXPERIENCE

#### Project Engineer (Academic Role)

Aug 2023 - Dec 2025

Implemented full stack applications using MERN stack. Collaborated in 2+ group projects, taking lead on backend development. Followed Agile processes in mini-projects for regular sprint-based deliveries. Participated in multiple hackathons, tech quests and competitions.

### EDUCATION

#### Diploma in Computer Science

Aug 2023 - Present

Government Polytechnic, Mumbai. CGPA: 9.6,

Ranked in the **Top 5%** of the class.

Completed key projects using **MERN stack**.

Actively participated in **coding contests**, **hackathons**.
