"I enjoy building practical and user-friendly web applications. My work often involves React, Node.js, Express and MongoDB, with a focus on clean design and smooth performance."

## Projects

---

### PingUp — [link](#)

MongoDB, Express.js, React.js, Node.js, Clerk, Inngest, ImageKit

- Built a full-stack social media web app using the MERN stack
- Implemented authentication and user management with Clerk
- Integrated event-driven workflows with Inngest
- Optimized media handling and storage with ImageKit
- Connected frontend and backend APIs for real-world functionality
- Solved bugs and optimized performance during development
- Planning to add comments, shares, and further improvements

## Education

---

### Diploma in Computer Science — Government Polytechnic Mumbai

2023 – 2026

- Consistently scoring 9.6+ CGPA throughout diploma coursework
- Strong foundation in all core computer science subjects taught in diploma
- Core subjects include Data Structures, Algorithms, Database Management, and Operating Systems
- Exploring web and app development through personal and academic projects

## Skills

---

**Primary:** MongoDB, Express Js, React Js, Node Js, TypeScript, Tailwind CSS

**Secondary:** C, C++, Java, Python
